SUMMARY

Experienced professional skilled at creating high-quality websites with attention to detail. Proficient in HTML, CSS, and JavaScript frameworks such as React and TypeScript, as well as WordPress. Demonstrated track record of delivering creative solutions under tight deadlines and working directly with product managers to meet project requirements.

EXPERIENCE

FRONTEND DEVELOPER

Top Hat Monocle   **Mar 2022 - Feb 2024**

- Implemented and upheld advanced front-end features utilizing React.js and Typescript, driving a notable 25% surge in user engagement.
- Exclusively utilized WordPress and PHP for the corporate website at Top Hat, implementing responsive web design principles using HTML5 and CSS3 (Sass/SCSS) to ensure cross-browser compatibility and mobile optimization.
- Collaborated remotely across teams, using Git and JIRA for version control and agile project management, ensuring timely delivery of high-quality software solutions.

FRONTEND DEVELOPER

Property.ca   **Nov 2020 - Mar 2022**

- Led the transition to modern JS frameworks, specifically Next.js, for building highly interactive and dynamic microsites, resulting in a 20% improvement in web performance metrics.
- Utilized Figma to create high-fidelity mockups and wireframes, enhancing communication and streamlining development.
- Integrated RESTful APIs to connect front-end features with back-end services, enhancing the functionality and user experience of real estate listing platforms.

FRONTEND DEVELOPER

Thatjenster.io   **2020 - Present**

- Specialized in custom website development, employing React.js and Wordpress to deliver scalable and maintainable web applications tailored to client needs.
- Advocated for and implemented web accessibility standards and responsive design, ensuring websites are accessible to a diverse audience and devices.
- Managed projects from concept to launch, leveraging agile methodologies and remote collaboration tools, to deliver high-quality web solutions that meet client specifications and deadlines.
